Abstract

One or two sentences providing a basic introduction to the field, comprehensible to a

scientist in any discipline.

Two to three sentences of more detailed background, comprehensible to scientists

in related disciplines.

One sentence clearly stating the **general problem** being addressed by this particular

study.

One sentence summarizing the main result (with the words "here we show" or their

equivalent).

Two or three sentences explaining what the **main result** reveals in direct comparison

to what was thought to be the case previously, or how the main result adds to previous

knowledge.

One or two sentences to put the results into a more **general context**.

Two or three sentences to provide a **broader perspective**, readily comprehensible to

a scientist in any discipline.

The title

Introduction

Some introduction

Background

Some background

Methods

We report how we determined our sample size, all data exclusions (if any), all manipulations, and all measures in the study.

Participants

Material

Data A. 2010 Census - Census Tract Reference Map (n.d.)

Isnandar et al. (2022)

Data B.

Procedure

Data analysis

We used R (Version 4.1.3; R Core Team, 2022) and the R-packages dplyr (Version 1.0.8; Wickham, François, Henry, & Müller, 2022), forcats (Version 0.5.1; Wickham, 2021), ggplot2 (Version 3.3.5; Wickham, 2016), papaja (Version 0.1.0.9999; Aust & Barth, 2022), purrr (Version 0.3.4; Henry & Wickham, 2020), readr (Version 2.1.2; Wickham, Hester, &

Bryan, 2022), stringr (Version 1.4.0; Wickham, 2019), tibble (Version 3.1.6; Müller & Wickham, 2021), tidyr (Version 1.2.0; Wickham & Girlich, 2022), tidyverse (Version 1.3.1; Wickham et al., 2019), and tinylabels (Version 0.2.3; Barth, 2022) for all our analyses.
